PUBLISHED FOR LABOR ACTIVISTS BY THE ILLINOIS AFL-CIO

MICHAEL T. CARRIGAN, PRESIDENT

TIMOTHY E. DREA, SECRETARY TREASURER

JASON KELLER, LEGISLATIVE DIRECTOR

The Illinois General Assembly concluded their business on Thursday this week. Governor Quinn gave his budget address on Wednesday. March 28 was the deadline to pass bills through committees in their chamber of origin. The House and Senate both return next Tuesday, April 1 at 12pm. Both chambers will now shift to considering bills on the floor of the House and Senate. The deadline to pass legislation to the opposite chamber is Friday, April 11.

Governor Quinn Announces Illinois Ranks #3 in Nation for Business Development

Governor Quinn announced that Illinois has moved up to third in the nation and the Chicago area is now the number one metro market in the country for new and expanded corporate facilities. In 2013, Illinois had 383 corporate facilities locate or expand in the state. The rankings put out by Site Selection required that new corporate facilities and expansions had to meet at least one of three criteria - involve a capital investment of at least \$1 million, create at least 50 jobs or add at least 20,000 square feet of new floor area. The rankings are regarded by corporate real estate analysts as the "the industry scoreboard."

Quinn Proposes Property Tax Relief, Making Permanent Current Tax Levels

Highlighting this week's action at the State House, Gov. Pat Quinn outlined his priorities to the General Assembly during the annual Budget Address Wednesday.

Quinn proposed making permanent the current tax levels for Illinois while providing property tax relief in the form of a \$500 refund each year and a doubling of the Earned Income Tax Credit for low-income families.

"The Governor's proposals were reasonable and pragmatic," said Illinois AFL-CIO President Michael T. Carrigan. "In an election year, it took courage to make his case for keeping the state's revenue growth in order to provide vital services and make a deeper investment in education. Austerity would create an economic free fall."

Quinn proposed educational budget reforms that would significantly increase investment in education, including increasing classroom funding, funding for the Birth to Five early education initiative, and doubling the MAP scholarships for students in need.

"Education and infrastructure are the two biggest drivers for economic development," Carrigan said. "The Governor has passed a capital plan in his first term and with this budget proposal is seeking to boost our schools up to historic levels. This budget outlines a vision for a strong and vibrant economic future."

Quinn said that, following cuts of \$5.7 billion in recent years, a reversal of tax rates would create unthinkable cuts in services and education funding.

"If action is not taken to stabilize our revenue code, the reality is that extreme cuts will be imposed on education and critical public services," Quinn said. "Cuts that will starve our schools and result in mass teacher layoffs, larger class sizes and higher property taxes... We cannot stand by and allow savage cuts to education and public safety to unravel the progress we've made these last five years."

Rauner Responds – Kind of

Quinn's opponent in November, billionaire Bruce Rauner, issued a statement saying that Illinois could balance the budget without a tax increase. Seemingly relying on boilerplate right-wing anti-middle class rhetoric, Rauner said it would mean Illinois would have to create a "growth economy."

However, as usual, he offered no specifics – like what he would cut and how the cuts would affect mental health programs, veterans assistance, education and public safety.

Quinn Endorsed By Illinois AFL-CIO

The Illinois AFL-CIO Executive Board voted to endorse Gov. Pat Quinn on March. 21.

Following a Primary Election where Labor worked strenuously to defeat billionaire right to work advocate Bruce Rauner, the Board overwhelmingly voted to endorse Quinn, who is seeking a second term (he took over following the impeachment of Rod Blagojevich in 2009).

“Working families in this state can’t afford a Rauner administration,” said Illinois AFL-CIO President Michael T. Carrigan. “He is an arch enemy of workers. He wants to slash the minimum wage, take away pensions and destroy unions... We felt it was important to send the message that we are standing with Pat Quinn and will be doing everything we can to see that he is re-elected.”

Cesar Chavez: The Movie

This weekend will mark the nation-wide release of the film Cesar Chavez, about the life and career of the leader and founder of the United Farm Workers. For the first time in decades, a major motion picture will focus on the struggle of courageous workers to form a union - in this case the epic David versus Goliath case of immigrant farm workers taking on one of California’s richest and most powerful industries. The film captures the sacrifices made when workers are on strike, engage in civil disobedience, and demonstrates that labor movement solidarity with a community galvanized around the moral issue of social justice can inspire the nation.
